

# WHO WE ARE

## TEMPUS PHILOSOPHY

Tempus Business Strategists believe that the real reason why people want to own a business is to attain time and opportunity. The way you achieve more time and greater opportunities is through financial freedom. Financial freedom can be obtained through charting your own course by owning a business. Business ownership makes possible the earning of unlimited income and managing your own time. In the end, having money will not make you happy. What will ultimately make you happy is what having money will provide you: time and opportunities. Time to spend with your friends and loved ones and opportunities to pursue your passions. Allow us to help you in your journey to attain time and opportunities by helping you sell, buy or grow a business.

## MEANING OF TEMPUS CREST

The Tempus Crest represents the totality of a business. The ten columns as depicted in the upper left and lower right quadrant represent the ten areas of every business: Sales, Marketing, Operations, Finances, Customer Service, Legal, Technology, Innovations, Ethics and Community Service. The upper right quadrant shows a series of mountain ranges. The way a mountain range peaks and valleys, a business goes through the same cycles. Every business should continuously strive to reach their mountain top. The lower left quadrant illustrates a fountain pen. The pen represents the writing of goals, plans and execution. It also represents the signing of deals which leads to increased revenues. Lastly, the word Tempus is a Latin word meaning time and opportunity.
